DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, 18-25 and 34, drawn to a doll with movable portions and a positioning structure, classified in class 446, subclass 330.
- II. Claims 26-28 and 30-33, drawn to an interactive doll responsive to external features/accessories, classified in class 446, subclass 98.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as an interactive doll to teach children the proper placement of clothing and accessories. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
